

# The 22nd International Conference on Quantitative Methods in Economics 2021

organized by

Department of Econometrics and Statistics

Institute of Economics and Finance

Warsaw University of Life Sciences – SGGW, Poland

**Conference date: June 23, 2021**

**Conference Venue: Warsaw University of Life Sciences – SGGW  
(online, MS Teams)**

Department of Econometrics and Statistics – SGGW is warmly inviting you to participate in the 22nd International Scientific Conference on Quantitative Methods in Economics (QME). Just like in the previous years, the 2021 conference is expected to be a broad scientific forum focused on exchanging opinions and experiences. The main aim of the QME conference is a presentation of the latest research results as well as the integration of Polish and international academic staff interested in quantitative methods applications in economics and life sciences.

## Conference Scope and Topics:

- quantitative methods, statistics and mathematics in economics,
- applied quantitative methods and statistics in life sciences,
- econometrics and biometrics,
- multidimensional data analysis,
- operational research,
- financial mathematics, financial engineering and insurance,
- data science.

Due to the current epidemiological situation in the country and actions taken to prevent covid-19, this year's conference will take place only in the form of a teleconference and the participation is free of charge.

## Deadlines and important dates:

June 9, 2021 – Registration deadline

June 9, 2021 – Abstract submission deadline
