

3rd International Scientific Conference

Sustainable Development – - Regional and Local Dimensions

On-line, on May 31, 2023

The event will provide a forum for the exchange of knowledge, views and research findings in the field of multifaceted sustainable local and regional development.

The organisers invite papers, on-line presentations and posters rethinking established theories and research methods, as well as those identifying new fields of enquiry and shedding new light on the reasons for and consequences of social, economic and environmental changes in local and regional contexts of sustainable development.

To register [[click this link](#)]. Registration is open till May 24, 2023. In case of co-authored presentations only the corresponding author should register and list all the co-authors and adequate information in the registration form.
